Title: CONTAINER FOR EXPLOSIVE DEVICE

**RESPONSE**

Commissioner for Patents  
Box Non-Fee Amendment  
Washington, D.C. 20231

Dear Examiner:

**RECEIVED**

**MAR 04 2003**

**GROUP 3600**

**REMARKS**

Applicants respectfully request reconsideration of the rejections set forth in the Office Action mailed on November 26, 2003. Claims 1-19 are pending. Claims 1-19 have been rejected.

This amendment is to expedite prosecution and should not be construed as acquiescence in any ground of rejection. Applicants reserve the right to prosecute the originally filed claims in the future.

***Rejections Under 35 USC 102***

Claims 1-14, 16, and 18 have been rejected under 35 U.S.C. §102(a) as being anticipated by "Portable EOD Total Containment Unit," NABCO, Inc. (<http://www.nabcoinc.com/eod/html>, August 10, 2001). Applicants respectfully traverse the rejection.

As set forth in the Declaration of Gary Greenfield under 37 C.F.R. §1.131, Applicants maintain that the claimed invention predated the publication of the NABCO reference. More

specifically, Applicants filed a provisional patent application serial number 60/178,447, on January 27, 2000. The device described in the '447 application was licensed by the assignee of the present invention to NABCO. NABCO subsequently published a figure of the device on its website (i.e., the NABCO reference.)

Although the '447 application was allowed to lapse, the inventors of the subject application continued to work diligently on the device. This work occurred in the United States. The ongoing work culminated in the filing of the present application.

The claimed invention predated the publication of the NABCO reference. Applicants maintain that the NABCO reference is not available as prior art against the claimed invention. Therefore, it is respectfully submitted that the claims are patentable over the cited reference.

***Rejections Under 35 USC 103***

Claim 15 has been rejected under 35 U.S.C. §103(a) as being unpatentable over NABCO. Claims 17 and 19 are also rejected under 35 U.S.C. §103(a) as being unpatentable over NABCO in view of U.S. Patent No. 3,820,435 to Rogers et al. ("Rogers"). Applicants respectfully traverse the rejection.

As discussed above, the claimed invention predated the NABCO reference. Applicants maintain that Rogers does not teach or suggest the claimed invention. Therefore, it is respectfully submitted that the claims are patentable over the cited reference.

Applicants believe that all pending claims are allowable and respectfully requests a Notice of Allowance for this application from the Examiner. Should the Examiner believe that a telephone conference would expedite the prosecution of this application, the undersigned can be reached at the telephone number set out below.

Respectfully submitted,
